

RRB NTPC High-Yield Predictive Master Set

Syllabus Focus: Prehistoric Period, IVC, Vedic Period, Gupta Empire, India & its Location, and The Himalayan Range.

ANCIENT INDIAN HISTORY BLOCK

Chapter: Prehistoric Period

Q1. The prehistoric site of **Attirampakkam**, which has provided landmark evidence of a continuous transition from the Lower Paleolithic to the Middle Paleolithic culture using Acheulian tools, is located in which state?

- (A) Karnataka
- (B) Tamil Nadu
- (C) Andhra Pradesh
- (D) Madhya Pradesh

Correct Answer: (B) Tamil Nadu

Trend Relevance: RRB is shifting from standard Neolithic questions to deep Paleolithic excavation milestones.

Explanation: Attirampakkam (near Chennai, Tamil Nadu) is one of the most critical stone-age sites in India, proving human occupation dating back over 1.5 million years.

Context of Other Options: Karnataka is famous for Isampur (Paleolithic); Andhra Pradesh houses Jwalapuram; Madhya Pradesh features the Narmada valley (Hathnora).

Chapter: Indus Valley Civilization (IVC)

Q2. While most Indus Valley cities feature a highly meticulous grid-iron pattern drainage network, which major Harappan site is uniquely famous for a **complete lack of a systematic drainage system** and the presence of a radial street layout?

- (A) Banawali
- (B) Kalibangan
- (C) Rakhigarhi
- (D) Ropar

Correct Answer: (A) Banawali

Trend Relevance: Testing exceptions to the urban planning rules of the IVC is a classic high-tier shift trend.

Explanation: Banawali (Haryana), located on the dry bed of the ancient Sarasvati river, lacks the standard grid drainage found in Mohenjo-daro or Harappa.

Context of Other Options: Kalibangan is famous for wooden drainage pipes; Rakhigarhi is the largest Indian site; Ropar is the first site excavated post-independence.

Chapter: The Vedic Period

Q3. In the economic and social matrix of the Early Vedic society, the terms '**Gojana**' and '**Godhuli**' were technically employed to measure which specific units?

- (A) Units of currency and metal weights
- (B) Units of spatial distance and time intervals
- (C) Designations for administrative ministers
- (D) Categories of agricultural land tax

Correct Answer: (B) Units of spatial distance and time intervals

Trend Relevance: Pastoral vocabulary from the Rigveda is heavily targeted in central static GK sections.

Explanation: In a cow-centric economy, Gojana meant the distance a cow could walk in a day, and Godhuli meant dusk (the time when cattle return home kicking up dust).

Context of Other Options: Early Vedic currency units included Nishka; taxes were voluntary offerings called Bali.

Chapter: The Gupta Empire

Q4. In the land revenue and administrative system of the Gupta Empire, the technical terms '**Kulyavapa**' and '**Dronavapa**' denoted:

- (A) Measures of land area calculated by seed capacities
- (B) Specialized taxes levied on maritime merchants
- (C) Titles given to provincial governors
- (D) High-grade gold and silver coins issued by the state

Correct Answer: (A) Measures of land area calculated by seed capacities

Trend Relevance: Agrarian terminology from land grants is a primary theme in recent railway papers.

Explanation: A Kulyavapa was the area of land required to sow one Kulya (basket) of seed grains.

Context of Other Options: Governors were called Uparikas; gold coins were called Dinars.

INDIAN GEOGRAPHY BLOCK

Chapter: India & its Location (Frontiers & Coordinates)

Q5. According to the United Nations Convention on the Law of the Sea (UNCLOS), the **Territorial Waters** of India, over which the nation exercises absolute sovereignty, extend into the sea up to what distance from the baseline?

- (A) 12 Nautical Miles
- (B) 24 Nautical Miles
- (C) 200 Nautical Miles
- (D) 100 Nautical Miles

Correct Answer: (A) 12 Nautical Miles

Trend Relevance: Maritime zoning definitions are high-yield questions for general geography selectors.

Explanation: India's maritime zones are split into Territorial Waters (12 NM), Contiguous Zone (24 NM), and Exclusive Economic Zone / EEZ (200 NM).

Context of Other Options: 24 NM allows fiscal control; 200 NM allows exploration rights for resources.

Chapter: India & its Location (Land Borders)

Q6. The strategic **Siliguri Corridor** (popularly known as the 'Chicken's Neck'), which connects mainland India to the northeastern states, is bordered by which two foreign nations?

- (A) Nepal and Bangladesh
- (B) Bhutan and China
- (C) Nepal and Bhutan
- (D) Bangladesh and Myanmar

Correct Answer: (A) Nepal and Bangladesh

Trend Relevance: Geopolitical border bottlenecks are frequently targeted in map-based questions.

Explanation: The Siliguri Corridor in West Bengal is a narrow stretch of land flanked by Nepal to the north/northwest and Bangladesh to the south.

Context of Other Options: Other options fail to map the exact immediate lateral borders of this corridor.

Chapter: India & its Location (Coastline)

Q7. Among the nine coastal states of India, which state possesses the **longest coastline on the eastern seaboard** of the country?

- (A) Gujarat
- (B) Tamil Nadu
- (C) Andhra Pradesh
- (D) Odisha

Correct Answer: (C) Andhra Pradesh

Trend Relevance: Classic trap question focusing on the regional filter ('eastern seaboard') instead of the absolute longest.

Explanation: Gujarat has the absolute longest coastline overall (Western coast). However, on the Eastern coast, Andhra Pradesh has the longest coastline (~974 km).

Context of Other Options: Odisha and Tamil Nadu have shorter coastal lengths than Andhra Pradesh.

Chapter: The Himalayan Range (Structural Divisions)

Q8. The **Dun valleys** (such as Dehra Dun, Patli Dun) and **Duar formations**, which are vital geological features of Northern India, are located at the structural junction between which two mountain ranges?

- (A) Trans-Himalayas and Great Himalayas
- (B) Great Himalayas and Lesser Himalayas
- (C) Lesser Himalayas and the Shiwalik Foothills
- (D) Shiwaliks and the Great Northern Plains

Correct Answer: (C) Lesser Himalayas and the Shiwalik Foothills

Trend Relevance: Longitudinal structural valley formations are a favorite topic in the physical geography section.

Explanation: Duns are flat-bottomed longitudinal structural valleys formed between the Lesser Himalayas (Himachal) and the Outermost Shiwaliks.

Context of Other Options: Other junctions form different fault boundaries like the Main Central Thrust or the Himalayan Frontal Fault.

Chapter: The Himalayan Range (Mountain Passes)

Q9. Which crucial Himalayan mountain pass forms a tri-junction between **India (Sikkim), Bhutan, and China (Tibet)** near the strategic Chumbi Valley?

- (A) Shipki La
- (B) Jelep La
- (C) Lipulekh Pass
- (D) Bomdi La

Correct Answer: (B) Jelep La

Trend Relevance: Border tri-junction passes are high-priority targets for current geographic assessment agencies.

Explanation: Jelep La (and its neighboring pass, Nathu La) sits in Sikkim, serving as a historic trade conduit linking India with Lhasa via the Chumbi Valley intersection.

Context of Other Options: Shipki La is in Himachal Pradesh; Lipulekh is a tri-junction in Uttarakhand (India-Nepal-China); Bomdi La is in Arunachal Pradesh.

Chapter: The Himalayan Range (Peaks)

Q10. Which of the following statements is geologically correct regarding the peak **Namcha Barwa**?

- (A) It is the highest peak of the Western Himalayas located in Jammu & Kashmir.
- (B) It forms the decisive Eastern anchor point where the Himalayas take a sharp syntaxial bend into Myanmar.
- (C) It is a volcanic peak located completely within the state of Uttarakhand.
- (D) It marks the boundary separating the Kumaon Himalayas from the Nepal Himalayas.

Correct Answer: (B) It forms the decisive Eastern anchor point where the Himalayas take a sharp syntaxial bend into Myanmar.

Trend Relevance: Syntaxial bends and terminal markers of the mountain chain are frequent test options.

Explanation: Namcha Barwa (7,782 m) marks the extreme eastern limit of the Himalayan arc, where the Brahmaputra River curves sharply around it to enter India.

Context of Other Options: The western counterpart anchor point is Nanga Parbat.
